Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Claims 1-21 are presented for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I) Claims 1-6 and 11-21 drawn to processing streaming audio signals over the internet, classified in Class 709, subclass 231.

Group II) Claims 7-10 are drawn to delivering and managing specialized software applications over the internet where the specialized software applications are delivered from individual server partners to a corresponding group of clients, classified in Class 707, subclass 225.

3. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are unrelated. In the instant case the different inventions as group I claims 1-6 and 11-21 are directed to processing streaming audio signals over the internet, lacking delivering and managing specialized software applications over the internet where the specialized software applications are delivered from individual server partners to a corresponding group of clients. Therefore, inventions I and II have different functions, different modes of operation and they have different effects.

4. These inventions are distinct for the reasons given above, and the search required for each Group is different and not co-extensive for examination purpose. For example, the searches for the four inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

(a) the Group I search (claims 1-6 and 11-21) would require use of search Class

709, subclass 231 (not require for the invention II).

(b) the Group II search (claims 7-10) would require use of search Class 709, subclass 225 (not require for the invention I).

5. A telephone call was made to Ms. Karen Lenker on June 18, 2004 to address a possibility of restriction requirement, but did not result in an oral election being made.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ashok B. Patel whose telephone number is (703) 305-2655. The examiner can normally be reached on 8:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John A Follansbee can be reached on (703) 305-8498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
